April 20-21, 2023
- Shift Miami Developer Conference
May 23, 2023

LANGUAGES

English, Ukrainian, Russian

Front-End Web Developer | Starhouse Tech | Contract

AUGUST 2021 - PRESENT, MIAMI , FL

- Collaborated with the development team to design and develop interactive and dynamic web applications using React, HTML, CSS, and JavaScript.
- Translated design mockups and wireframes into functional user interfaces, ensuring a seamless and intuitive user experience.
- Leveraged React components and libraries to build reusable and scalable front-end solutions, optimizing development efficiency.
- Integrated third-party APIs, such as payment gateways and social media platforms, to enhance application functionality.
- Collaborated closely with back-end developers to establish efficient communication and data exchange between front-end and back-end systems.
- Actively participated in Agile development methodologies, including daily stand-ups, sprint planning, and retrospective meetings.
- Assisted in code reviews, providing constructive feedback to peers and ensuring adherence to coding standards.
- Contributed innovative ideas and problem-solving strategies during team meetings, driving continuous improvement and project success.

Sales Consultant | Mercedes-Benz of Miami

MAY 2019 - MARCH 2021, MIAMI , FL

- Increased revenue by skillfully upselling and closing customer sales and driving product benefits around client needs.
- Maintained customer satisfaction rate of 100% (CSI) and received consistent referrals and repeat business as a result of first-rate customer service skills.
- Educated customers about sales processes, warranty requirements and service standards.

BrainStation | Diploma, Software Engineering

FEB 2023 - MAY 2023, MIAMI, FL

Chortkiv State Medical College | Associate Of Science

JUL 2014 - 2017, UKRAINE

PROJECTS

Front End Engineer | UKG | React, Generative AI

May 2023, HACKATHON

- Developed the "TeamWise by UKG" Workplace Psychological Safety Toolkit using Generative AI Technology. Collaborated with engineers and UX designers in an Agile environment, leveraging Jira for project management. Automated tasks, generated creative content, and made data-driven decisions by analyzing patterns.

Full-Stack Engineer | Dopomoha | MERN stack, MapBox API

May 2023

- Developed a volunteering platform for refugees, featuring a map-based application. Leveraged the MERN stack (MongoDB, Express, React, Node.js) to create real-time donation posting functionality based on map location. Empowered users to contribute and view donations easily through an intuitive and interactive interface.

Mobile Development | VoxAI | React Native, OpenAI API

June 2023

- Integrated a self-developed AI Chatbot into the application, enabling real-time image generation seamlessly within the same platform.
